

~~SECRET~~

21 January 1986

MEMORANDUM FOR: Chief of Operations, OC

FROM:

[redacted]  
Chief, Management and Plans Staff, OC

25X1

SUBJECT: Weekly Staff Notes, 13-17 January 1986

25X1

1. General:

a. The FY88-92 New Communications Services have been received from all the Directorates except for the DDI (the DI Planning Officer informed MPS that he is just beginning to solicit the offices in the DI for their FY88-92 New Communications Services). Costing figures for these requirements will be coordinated between OIT and the OC Divisions in the very near future.

b. The responses to the corporate business areas of the OC Strategic Plan are being intergrated into the MPS Requirements Tracking System (RTS). The RTS will allow the Office to maintain a chronology and track the development of each business area.

c. [redacted] participated in the informal discussions held at [redacted] with the new DA, Mr. Richard Kerr, during the evening of 16 January.

2. Satellites:

a. [redacted] participated in a special MILSATCOM Panel working session, 14-15 January, at the MILSATCOM Office, [redacted] The purpose of this session

was to collect, analyze, and prepare to present information relating to an EHF Wideband package to the C<sup>3</sup> Review Council. A second working session is planned during the first week of February.

b. The monthly meeting of the MILSATCOM Panel met on 16 January at DCA Headquarters. [ ] supported a motion to analyze probable blockage of the UHF MILSATCOM system by friendly users in a crisis environment. This concern is prompted by the rapid proliferation of manpack terminals. It appears doubtful, however, that the Panel will assume the required tasking in view of the current workload and limited funds. Navy later indicated they may take this as a service initiative.

c. [redacted] attended the monthly AFCEA luncheon at the Holiday Inn in Tyson's Corner. The speaker was Brigadier General Paul Slack, who discussed Marine Corps communications issues.

d. On 16 January, [redacted] participated in a monthly facilities Project Review Meeting with the [redacted] and OC-FND. This review included some 60 projects in various stages of development. Although an explanation can be given in each case as to its status, most of the projects are behind schedule.

4. Significant Activities Scheduled for week of 20 January:
